ICOI
WORLD
CONGRESS
September 26-28, 2024

Platinum Sponsor:

Silver Sponsors:

Dear Colleagues,

On behalf of the ICOI, I am delighted to extend a warm welcome to you for our upcoming ICOI World Congress in Orlando, Florida on September 26-28, 2024.

As the leading non-profit international dental implant organization, we are dedicated to promoting education and advancing the field of implant dentistry worldwide. The theme of our upcoming conference is "The Influence of Prosthetics in Implant Dentistry," and we have curated an exciting program of keynote lectures and workshops with a special focus on prosthetics and aesthetics in high end implant therapy.

Our esteemed speakers from all over the world are renowned experts in the field of implant dentistry, and they will be presenting innovative research, clinical techniques and protocols that will enhance your knowledge and skills. These lectures will begin Thursday afternoon from the main podium. Additionally, we have several interactive pre-congress workshops that will take place Thursday morning.

The conference will take place at the luxurious Orlando Marriott World Center, providing an ideal setting for networking and learning. You will also have the opportunity to meet fellow dental professionals from around the world to exchange knowledge and experiences under the known ICOI "family" atmosphere.

I encourage you to take advantage of this unique opportunity to enhance your knowledge and skills and advance your career in implant dentistry to the next level!

Looking forward welcoming you to Orlando.

Sincerely,

Dr. Konstantinos D. Valavanis
Scientific Chairman

The Influence of Prosthetics in Implant Dentistry

Our mission at the “Influence of Prosthetics in Implant Dentistry” conference is to bring together the world’s leading dental implant professionals to share knowledge and advance the field of implant dentistry with a special focus on prosthetics and aesthetics. Through innovative research and clinical presentations, our goal is to enhance the skills and knowledge of our attendees, empowering and inspiring them to provide the highest level of patient care.

Learning Objectives:

- Develop an overview of how Prosthetics influences how we place implants
- Understand how we can achieve long-term success with implants through sound prosthetics
- Review the latest techniques in digital dentistry from planning to the final restoration
- Explore high end interdisciplinary Implant therapy

Accreditation

ICOI designates the Scientific Program for 20 continuing education credits.
All Scientific Session presentations are lecture format and qualify for AGD Subject Code 690 Implant.

ADA C.E.R.P.[®] | Continuing Education
Recognition Program

ICOI is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

PACE
ACADEMY of
GENERAL DENTISTRY
PROGRAM APPROVAL
FOR CONTINUING
EDUCATION

International Congress of Oral Implantologists (ICOI). Nationally Approved PACE Program Provider for FAGD/MAGD credit. Approval does not imply acceptance by any regulatory authority or AGD endorsement. April 1, 2021 to March 31, 2024. Provider ID# 217378.

Dr. Zachary Evans

Navigating the Digital Landscape: Understanding the Tools and Techniques Available Now from Implants to Prosthetics

Numerous options exist for simplifying implant planning and surgery using digital workflows. The technology is rapidly advancing, and simple, user-friendly (and free!) digital solutions now exist. This workshop will review basic and advanced concepts and steps to treatment plan dental implant guided surgery using a free to all software suite. This is intended to eliminate the barriers of entry for novice and experienced implant practitioners alike.

Course Objectives:

- Find out how to vastly improve the entire implant process from initial consultation to guided surgery utilizing digital technology
- Consider strategies for utilizing CBCT images to the fullest extent for implant planning
- Understand how to digitally plan implants focusing on ideal positioning, angulation, depth and prosthetic outcome
- Evaluate the rationale for guided implant surgery and review the process for in-house surgical guide design and fabrication
- Review how these systems can improve profitability, efficiency, surgical outcomes, and patient satisfaction in your practice

IMPLADENT LTD
REGENERATIVE SOLUTIONS

Drs. Charles Schlesinger & Robert J. Miller

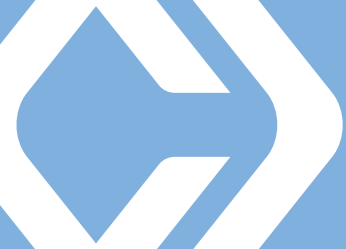

Achieving Synergy in Surgery: From One-Step Ridge Preservation Without a Membrane to Enhancing the Implant Site by Combining Novel Biomaterials with Autologous Growth Factors

From simple and cost-effective socket grafting to more advanced clinical concepts in bone regeneration, this course covers a spectrum of pliable preformed shapes used for bone grafting procedures for implant placement. Surgical techniques and novel biomaterials will be discussed using Synthetic Bioactive Resorbable Calcium Apatite crystals combined with bovine achilles tendon collagen to form a composite material known as the OsteoGen® Bone Grafting Plugs, Strips and Blocks. The scientific and biologic basis of growth factor utilization in bone and soft tissue applications will be reviewed using L-PRF technology combined with the OsteoGen® Plugs, Strips and Blocks.

Course Objectives:

- Demonstrate simple, predictable, and cost-effective socket grafting techniques without the use of a membrane using the OsteoGen® Bone Grafting Plugs
- Review additional surgical applications of the OsteoGen® Plugs, Strips and Blocks covering post-extraction grafting around immediately placed implants as well as filling interproximal and facial gaps after extraction, sinus lifts and onlay grafting
- Discuss the scientific and biological basis of growth factor utilization in bone and soft tissue grafting applications

PRF (Platelet Rich Fibrin) for Accelerated Wound Healing and Regeneration

Autologous growth factors have been shown to enhance wound healing and regeneration and reduce post-operative morbidity and complications. This hands-on course will review dental surgery wound healing and demonstrate the uses and advantages of incorporating PRF into surgical procedures. The hands-on portion will include phlebotomy, PRF fabrication and manipulation (membrane fabrication, sticky bone, PRF plugs).

Course Objectives:

- Understand dental surgery wound healing
- Understand how PRF enhances wound healing
- Understand the techniques for fabrication and manipulating PRF
- Understand how to incorporate PRF into surgical procedures

Mission Statement

Exciting updates await ADIA members! We're delighted to unveil a groundbreaking enhancement to our certification programs. You can now initiate your certification journey through our comprehensive e-learning platform, which allows you to learn from the comfort of your home. But that's not all — after completing the online segment, you can join us in Orlando, Florida.

Experience four hours of an engaging morning session, followed by four hours of hands-on practical learning in the afternoon. At the ADIA, we are dedicated to elevating your learning journey, and this innovative hands-on approach underscores our commitment to ensuring you extract the maximum value from your education.

Join us in embracing the new direction of the ADIA as we evolve to meet your educational needs and deliver an unparalleled certification experience. Our mission is to optimize your education journey, and this exciting update marks a significant step towards achieving that goal.

Learning Objectives:

- **Mastering E-Learning Platforms:**

Navigate through the online certification modules efficiently to maximize learning

- **Integrating Theoretical Knowledge:**

Engage actively in the immersive theory sessions held in Orlando, Florida

- **Hands-On Practical Learning:**

Apply theoretical and hands-on exercises to enhance your knowledge and confidence in the dental practice

These learning objectives aim to empower dental auxiliaries to excel in the certification programs' online and offline components, ensuring a well-rounded and comprehensive education experience.

5 Hands-on Stations:**

Stations

1

Unlocking Success: Innovative Approaches to Case Acceptance

Presented by Karen Young

Course Objectives:

- Develop and refine participants' communication abilities to effectively convey treatment options, benefits, and potential outcomes
- Equip participants with innovative approaches and techniques for presenting cases, incorporating visual aids, technology, and persuasive language to engage patients and enhance their understanding
- Acquire skills to present dental implant cases strategically, employing persuasive methods that enhance patient understanding and confidence, ultimately boosting case acceptance rates

2

Dental Implant Care: Mastering Maintenance Strategies and Home Care Practices

*Presented by Cyndi
Rousset*

Course Objectives:

- Application of dental implant maintenance techniques and proper use of specialized instruments
- Assess adjunctive therapies for dental implant care
- Equip participants with skills to tailor patient-specific dental implant home care plans

3

Precision Mastery: The Learning of Implant Placement

*Presented by Dr. Jonathan
Misch*

Course Objectives:

- Learning to navigate a surgical kit
- Understanding the planning & precision needed to place an implant
- Develop a better sense of bone densities and the knowledge of bone quality and quantity

4

Harmonizing Excellence: The Art of Meshing Dental Talents into a Unified Team Symphony

*Panel: Dr. Johnathan Misch,
Dental Hygienist-Cyndi
Rousset, Office Manager/
Treatment Coordinator-
Karen Young*

Course Objectives:

- Learn the key strategies for fostering open communication, ensuring that each member's unique skills contribute to a unified symphony of patient care
- Equip yourself with strategies to address common patient objections to dental implants, building the confidence to navigate objections effectively and increase overall case acceptance
- Participants are encouraged to actively engage by sharing their challenges and presenting case studies where treatment faced acceptance hurdles. The goal is to provide tailored assistance, fostering a collaborative learning environment that addresses individual concerns and enhances case acceptance skills

5

Single Tray Set Up For The Single Implant

*Presented by Nicole
Lagerwerf*

Course Objectives:

- Develop a comprehensive understanding of the instruments and tools required for a single implant procedure
- Establish a streamlined workflow for setting up a single tray tailored to the unique requirements of a single implant placement
- Learn aseptic techniques, sterile field maintenance, and infection control protocols relevant to single implant surgeries

ADIA Table Clinic Sessions

ADIA Table Clinic Sessions

Thursday, September 26, 2024 | 5:45 PM – 7:15 PM

The ADIA is pleased to announce that it will once again host an ADIA Table Clinics Session at this event. Table Clinics are 5-10 minute presentations given via laptop and presented multiple times throughout the session. They are an excellent way of sharing your knowledge and experience with your peers and are part of the requirements for Fellowship credentialing. The winner of the table clinic session will receive a complimentary one-year ADIA membership, one complimentary auxiliary registration to a future ICOI/ADIA sponsored symposium, an award plaque and consideration for the ADIA main podium.

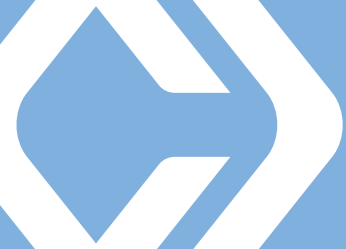

The ADIA Table Clinic Session for this event will take place during the Tabletop & Poster Presentations and Welcome Reception which is scheduled for Thursday, September 26, 2024, 5:45 PM – 7:15 PM.

Parties interested in conducting an ADIA Table Clinic Session can download the application at www.icoicampus.org/events. **Completed applications must be submitted to Dr. Avi Schetritt by August 1, 2024.**

Dr. Avi Schetritt – Email: dravi@comcast.net

 ADIA

For more information and registration visit
www.icoicampus.org/events

Tabletop and Poster Presentations

Thursday, September 26, 2024 | 5:45 PM – 7:15 PM

You don't have to be a Main Podium speaker to participate in our congress. Why not plan to present a Tabletop and/or Poster presentation? A "proven training ground" for future and current Main Podium speakers, the very popular Tabletop and Poster competition will be held in tandem with our Welcome Reception in the Exhibit Hall. It allows presenters to interact with colleagues in a social, yet instructive manner. Tabletop and Poster presentations should display a challenging case or concept in a limited time format, i.e. 5-7 minutes, so that the case can be repeated as new observers gather. Poster presentations will be placed (tacked or taped) on boards at the beginning of the congress and will remain on display throughout the congress. Poster presenters should be at their posters to answer inquiries during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI meetings.

Remember, all Fellows, Masters and Diplomates who conduct Tabletop or Poster presentations help fulfill their five-year maintenance requirements

Parties interested in conducting a Tabletop and/or Poster presentation can download the application at www.icoicampus.org/events. **Completed applications must be submitted to Dr. Avi Schetritt by August 1, 2024.**

Dr. Avi Schetritt – Email: dravi@comcast.net

Hotel Information

The Orlando World Center Marriott is complete with Florida sunshine, calming waterfalls and an impressive variety of activities for the whole family. Twist and turn down 7 thrilling waterslides, meander through a 575-foot lazy river, swim in a crystal clear 400,000-gallon lagoon pool and splash around in a dedicated kid's zone. Located near Orlando's other popular attractions, it's a destination you won't want to miss.

In order to receive the discounted room rate of \$229, reservations must be made by **August 30, 2024**. For reservations, please visit our website www.icoicampus.org/events or call **(407) 239-4200**.

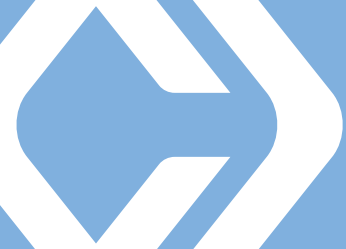

Don't forget to mention that you are a delegate to the 2024 ICOI World Congress.

The Orlando World Center Marriott Exterior

Grand Ballroom

Welcome Reception

Thursday, September 26, 2024
5:45 PM – 7:15 PM

Our Welcome Reception in the Exhibit Hall follows the afternoon session of the congress and allows for delegates to relax with drinks and hor d'oeuvres, socialize with colleagues, take advantage of product discounts being offered at the meeting by our exhibitors and to experience and discuss presentations made by our Tabletop and Poster participants. This aspect of the Welcome Reception continues to be a favorite amongst our attendees.

Gala Dinner

Friday, September 27, 2024
7:00 PM – 11:00 PM

Join us Friday evening at the Orlando World Center Marriott for an evening among friends and colleagues at our James Bond - 007 themed Gala. There will be dining, dancing and cocktails.

Tickets for the gala are \$250 USD per guest. Please order your tickets early on the registration form as our Galas typically sell out well before the event.

Diplomate/Mastership/ Fellowship

Awards Ceremony

Saturday, September 28, 2024
6:15 PM – 7:00 PM

The Advanced Credentialing Awards ceremony will be held at the Orlando World Center Marriott and will celebrate our newest class of ICOI Diplomates, Masters, Fellows and ADIA Fellows. Attendance at this social event has grown tremendously, as our members have achieved their advanced credentials. It provides an opportunity for family, staff and other ICOI members to celebrate as we toast our newest credentialed members. Please indicate on the registration form the number of guests in your party. Dress is business attire.

Accompanying Persons

If you are planning to bring a spouse or companion, please complete the appropriate section of the registration form. A fee of \$350 will provide your spouse or companion with the following:

- Admission to the Welcome Reception on Thursday evening
- Breakfast & Luncheons with the delegates on Friday and Saturday in the Exhibit Hall
- Morning and afternoon coffee breaks with the delegates in the Exhibit Hall
- Admission to the Exhibit Hall during show hours

Does not include admission to the General Session or ADIA program.
